

## WOOD VENEER EXECUTIVE FURNITURE

2 YEAR  
GUARANTEE

Natural oak (CN)

Dark oak (CF)

### TIMES SQUARE

Elegant and sophisticated

**Understated designs in a choice of superb wood veneer finishes**

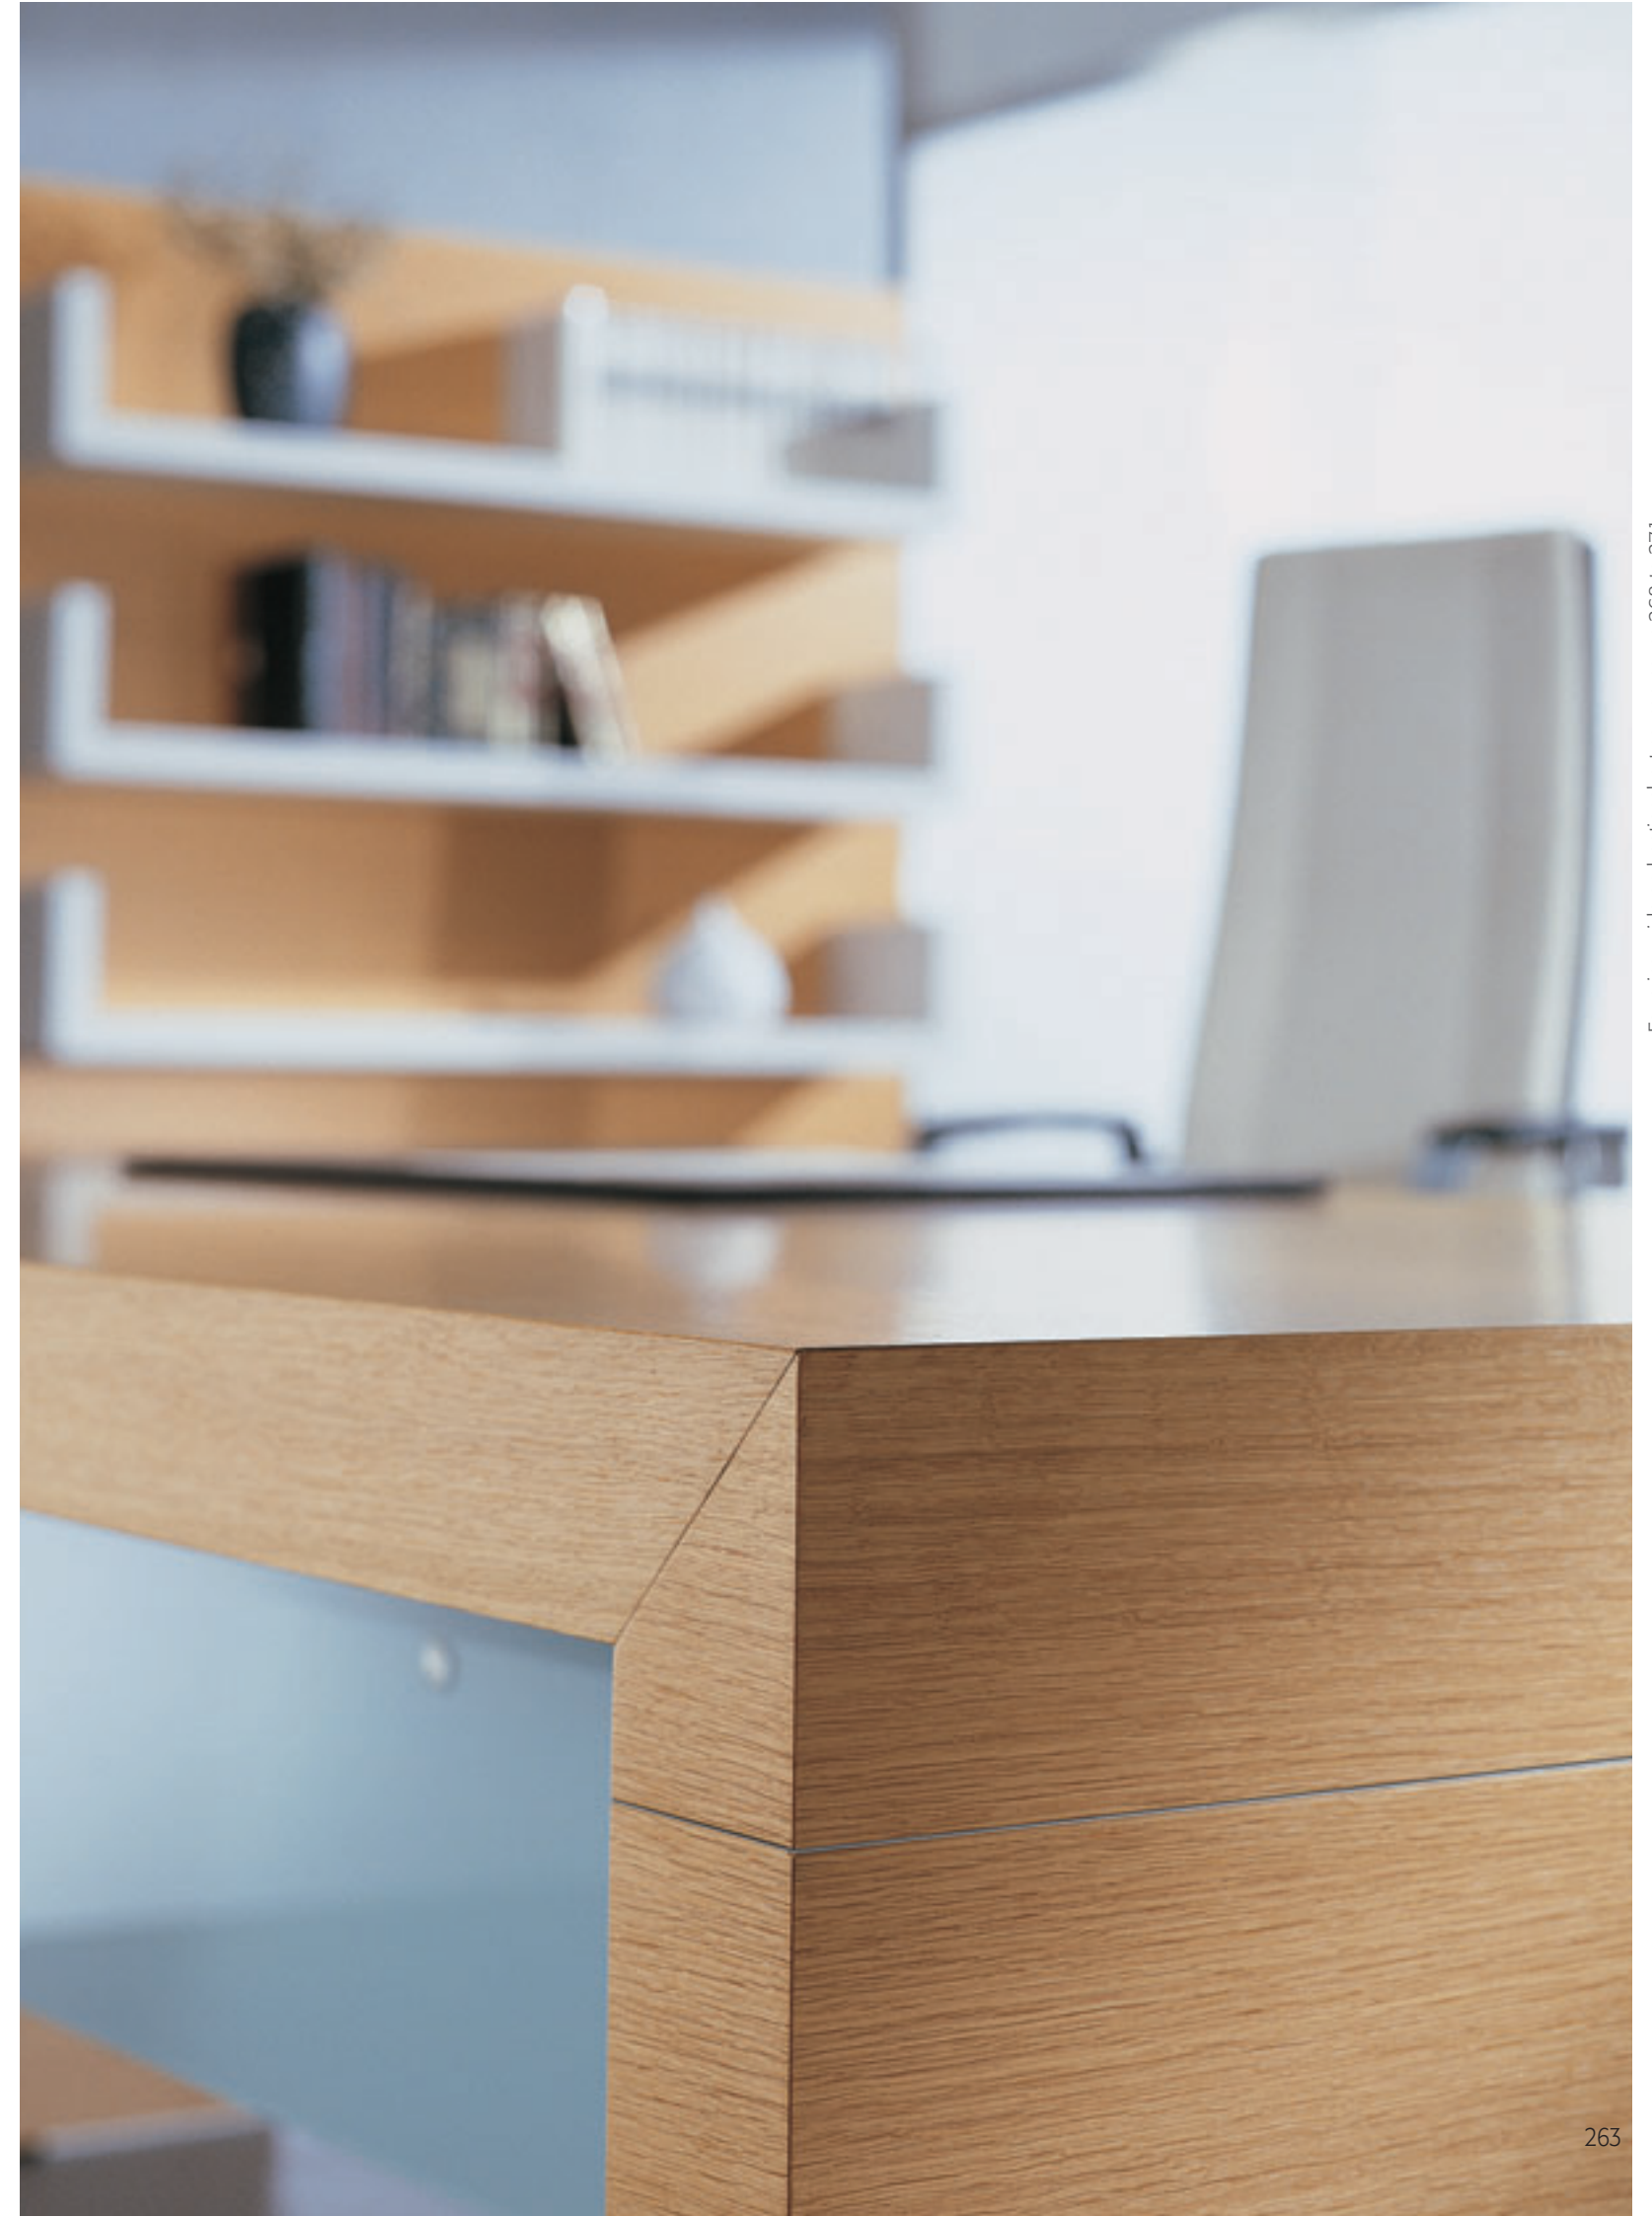

Stunning, 80 mm thick desktops covered in a veneer of European oak stained to give a natural oak or dark oak finish. Desk height : 75 cm.

The panel legs are fitted with glides, 5 mm in thickness.

Its arched leg design gives Times Square a refined and timeless quality, and the wood is carefully chosen to ensure that the line of the grain follows the line of the arch itself. The generously proportioned desktop and legs, each of which boast a thickness of 80 mm, convey a reassuring sense of strength and reliability.

The wood, the glass (6 mm thick) of the modesty panel and the beige lacquered finish of the complementary units combine beautifully to create a unique overall effect of harmony and style.

*The 2 year guarantee does not cover defects resulting from natural changes in the wood veneer surface.*

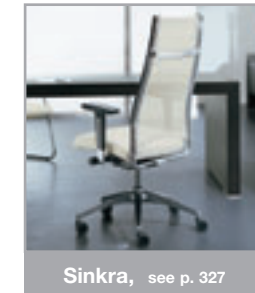

**Wood - the furniture material par excellence**

The generously proportioned desktop and legs convey a reassuring sense of strength and reliability. The refined and unpretentious desktop and panel legs combine to form a straight-sided arch, giving the range a timeless quality that will never fade. The regular pattern of the wood grain, the glass and the beige lacquered finish of the complementary units combine superbly to create an effect of harmony and style. The finishing touch to the Times Square collection is provided by an eye-catching bookcase, comprising shelves at the top and drawers at the bottom.

**TIMES SQUARE**  
furniture

## TIMES SQUARE

The collection boasts a choice of "intelligent" complementary units

The left or right-hand "return wall" (W x H cm : 130 x 67) can be fitted, according to preference, with a filing unit, a computer shelf, a pen tray or a CPU holder. All in all, a highly desirable and extremely useful piece of furniture.

The 4 door cabinet (W x D cm : 190 x 45) has many strings to its bow. It can be used as a return or as a storage unit, or as both at the same time with the storage area at the back. It can be fitted with doors in wood or in frosted, lacquered glass. Equally, without doors, it can be used as a handy side table.
